Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	0
As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0

<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>I interviewed all residents at this facility, all staff present at the facility, and reviewed all screening documents of residents present which corroborated that there were no residents with this characteristic to be interviewed.</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
88. Informal conversations with staff during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).	No text provided.

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	<input checked="" type="radio"/> Yes <input type="radio"/> No
91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	No text provided.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	0	0	0	0
Staff-on-inmate sexual abuse	2	1	1	1
Total	2	1	1	1

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual harassment	0	0	0	0
Staff-on-inmate sexual harassment	0	0	0	0
Total	0	0	0	0

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/Court Case Filed	Convicted/Adjudicated	Acquitted
Inmate-on-inmate sexual abuse	0	0	0	0	0
Staff-on-inmate sexual abuse	0	0	0	0	0
Total	0	0	0	0	0

95. Administrative SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

Standards

Auditor Overall Determination Definitions

- Exceeds Standard
(Substantially exceeds requirement of standard)
- Meets Standard
(substantial compliance; complies in all material ways with the stand for the relevant review period)
- Does Not Meet Standard
(requires corrective actions)

Auditor Discussion Instructions

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

115.311	Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
	Auditor Overall Determination: Meets Standard
	<p data-bbox="229 192 1509 255">Auditor Discussion</p> <p data-bbox="229 255 1509 479">There are three primary PREA policies at the Grand Forks County Juvenile Detention Center (GFCJDC or Grand Forks County JDC). The first is the PREA policy which begins in the first statement in paragraph 1.a. that the GFCJDC has zero tolerance toward all forms of sexual abuse and sexual harassment within its facility. The PREA policy follows the same outline as the PREA standards then specifically states how the GFCJDC will meet each standard. In addition to the PREA Policy, Policy 202 PREA/Juvenile Admission Rules and Policy 203 PREA Procedures & Law are used to ensure compliance with the PREA standards.</p> <p data-bbox="229 479 1509 638">The PREA Coordinator is well supported by the Administrator who manages the Grand Forks County JDC. In addition, the Lieutenant is assigned as the PREA Compliance Manger and supports the Administrator and the PREA Coordinator to ensure that all aspects of PREA compliance are adhered to. Both the PREA Coordinator and the PREA Compliance Manager have the authority to develop, implement and oversee their PREA compliance efforts.</p>

115.312	Contracting with other entities for the confinement of residents
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility does not contract for the confinement of its residents with other private agencies/entities.

115.313	Supervision and monitoring
	Auditor Overall Determination: Meets Standard
	<p data-bbox="231 190 1508 257">Auditor Discussion</p> <p data-bbox="231 257 1508 683">The Grand Forks County JDC has a documented staffing plan outlined in the PREA policy that states exactly how juveniles are supervised. This is reviewed annually and includes an assessment of camera coverage as part of their annual policy review. The staffing ratios are 1:8 staff to residents during waking hours and a 1:16 staff to residents during sleeping hours. This meets the PREA Standards. There have been three documented incidents since 2019 of falling below the required staffing level of a minimum of one male and one female on shift. These incidents did not result in falling below the required staffing ratio. Each time it was for a limited duration when a female staff had to leave shift leaving no female staff on duty for a short time. During the tour the auditor witnessed that staffing ratios were complied with, and adequate staff were on post throughout the facility. The facility is currently in the initial design phase for a new facility. In speaking with the administrator and the county commissioner, the plan incorporates a design that maintains their ability to protect residents from sexual abuse. The design is for one youth per room but will share a dayroom with the ability for youth to come out individually and have more dayroom time than the current facility. The auditor verified compliance of this standard by a review of policy, by reviewing documentation and through interviews.</p>

115.315	Limits to cross-gender viewing and searches
	Auditor Overall Determination: Meets Standard
	<p data-bbox="229 192 1509 255">Auditor Discussion</p> <p data-bbox="229 255 1509 591">Search procedures are covered in the PREA policies. The facility does not conduct cross-gender pat-down searches except in exigent circumstances. The agency trains security staff on how to conduct cross-gender pat-down searches, and searches of transgender and intersex residents. The facility does not search or physically examine a transgender or intersex resident for the sole purpose of determining the resident's genital status. If the resident's genital status is unknown, it is determined during conversations with the resident, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. The resident's own views are taken into consideration as to which staff performs a search of a transgender or intersex resident. During interviews staff physically displayed how to conduct a cross-gender pat search using the blade of the hand. During the resident interviews youth stated that staff of the same gender always search them.</p> <p data-bbox="229 591 1509 940">The Grand Forks County JDC has policies and procedures that ensures residents can shower, perform bodily functions and change clothing without nonmedical staff of the opposite gender viewing them in a state of undress except in exigent circumstances or when such viewing is incidental to routine cell checks. The shower facilities are individual and private and therefore allow for residents to shower and change clothing without staff viewing them in a state of undress. The shower rooms also have a toilet. Each resident's cell has a toilet, but youth can use the toilet in the shower room also if they want more privacy. The camera view is digitally altered with a black box over the toilet in the youth's room so that staff viewing the camera monitors do not see the youth on the toilet. This is a very small facility and staff of both genders are always in the same area as the youth dayroom and sleeping rooms. Staff review their monitor to see if a youth is near the toilet and will not lift the curtain on the window if the youth is near the toilet. They will come back to check that youth once they know they are back on their bed. Both staff and the youth stated cross-gender viewing is not an issue and youth have privacy.</p>

115.316	Residents with disabilities and residents who are limited English proficient
	Auditor Overall Determination: Meets Standard
	<p data-bbox="244 210 453 237">Auditor Discussion</p> <p data-bbox="244 271 1474 667">The Grand Forks County PREA policies includes the right to have equal access to all services and programs. The facility uses the Language Link as an interpretive service for residents who are limited English proficient or speak through sign language interpretation. All staff are instructed in the procedures for assisting youth who may need additional assistance. Staff work with youth who have either visual impairments or reading and comprehension issues by verbally reviewing the material. The agency takes appropriate steps to ensure residents with disabilities (for example, residents who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The policy states the facility does not rely on the use of resident interpreters, readers, or other types of resident assistants except in the limited circumstances where an extended delay in obtaining an effective interpreter could compromise the resident's safety. Zero Tolerance posters which provide information on reporting, the resident's handbook, and the resident's PREA Orientation form are printed in both English and Spanish. Spanish is the language most typically encountered at the facility other than English.</p>

115.317	Hiring and promotion decisions
	Auditor Overall Determination: Meets Standard
	<p data-bbox="242 210 453 237">Auditor Discussion</p> <p data-bbox="242 273 1493 497">Law enforcement criminal background checks are completed upon hire. A new law enforcement criminal background check is completed every five years. The Grand Forks County JDC consults the North Dakota Child Abuse Registry prior to hiring any employee. The auditor verified these requirements were met by interviewing staff and viewing a sample of the required documentation. The Grand Forks County JDC asks the required questions within their hiring process or promotions regarding any previous sexual misconduct. They also request staff to acknowledge that they understand they have a continuing duty to report any sexual misconduct throughout the terms of their employment. However, they are not asking these questions again during the annual review process.</p> <p data-bbox="242 533 1493 622">They will ask any former institutional employers if while under their employment their former employee had any substantiated sexual misconduct or terminated employment while under investigation for sexual misconduct. The current employees either did not have any previous institutional employment or they were hired prior to implementation of the PREA standards.</p> <p data-bbox="242 658 1493 810">CORRECTIVE ACTION: To comply with this standard, the auditor required that the facility provide a sample where the sexual misconduct questions have been asked during this year as a part of the annual review process. On August 17, 2022, the administrator provided copies of all the annual questionnaire regarding any previous sexual misconduct and staff acknowledgement that they understand they have a continuing duty to report any sexual misconduct throughout the terms of their employment.</p>

115.318	Upgrades to facilities and technologies
	Auditor Overall Determination: Meets Standard
	<p data-bbox="231 190 1508 257">Auditor Discussion</p> <p data-bbox="231 257 1508 548">The facility is small with the staff area open to the dayroom and with a direct view of the doors to the sleeping rooms. Staff continue to review for blind spots or changes to the facility through their incident review and annual review process. There are mirrors and cameras well placed throughout the facility. There have been no substantial modifications to the building since the last audit. The Grand Forks County JDC is currently in the initial design phase for a new facility. In speaking with the administrator and the county commissioner, the plan incorporates a design that maintains their ability to protect residents from sexual abuse. These services are covered under the MOU with the Community Violence Intervention Center (CVIC) for advocacy and victim support services and with the Grand Forks County Sheriff's Department for criminal investigations. Evidence protocol is followed by staff and the criminal investigator from the Grand Forks Sheriff's Department. Forensic examinations would be conducted at the emergency room of Altru Hospital by a specially trained Sexual Assault Nurse Examiner (SANE).</p>

Other training is provided such as Maintaining Boundaries for Corrections Staff, LGBTQ, Booking and Admissions, and Jail Staff Sexual Misconduct. Once the training is provided, staff sign a training documentation form or if an electronic course, then it is documented in the system with the completion date. The youth and the detention staff sign receipt of this information. Further PREA education is provided via a video that is shown to the youth prior to day 10. This is documented on the PREA Education form. Modifications are made to the resident education methods when necessary due to disabilities or limited English proficiency to ensure the resident can comprehend the information presented. There are also posters throughout the facility for continuous and readily available PREA information. The posters, the handbook, and the PREA orientation information are in both English and Spanish. This training was confirmed through youth and staff interviews. The administrator provided the auditor with updated resident education materials regarding resident reporting and victim support services (see comments outlined in standards 115.51 and 115.53).</p>

This training is documented and maintained by the facility. The nurse does not conduct forensic exams at this facility. It was apparent through the interviews that she has specialized knowledge in how to detect and assess signs of sexual abuse and sexual harassment; how to preserve physical evidence of sexual abuse; how to respond effectively and professionally to victims of sexual abuse and sexual harassment; and how and to whom to report allegations or suspicions of sexual abuse and sexual harassment. All residents who would report a sexual assault are transported to the local hospital with SANE services.</p>

The Grand Forks County JDC completes a pre-screening process upon intake. The screening is an objective screening and asks all but one of the screening questions as outlined in the standard. The screening did not have a question specifically about any physical disabilities. The auditor recommended some minor modifications to the screening tool, and they were immediately adopted, and the screening tool updated prior to the auditor leaving the on-site portion of the audit. The facility considers the concerns of a transgender or intersex resident's own view with respect to his or her own safety. Those views are given serious consideration, and this was demonstrated through the interviews of staff. The population has been low enough that typically all youth have a single occupant room and they use the dayroom individually. All youth shower separately at the facility. The facility does not place lesbian, gay, bisexual, transgender, or intersex residents in particular housing, bed, or other assignments solely based on such identification or status, nor does the facility consider lesbian, gay, bisexual, transgender, or intersex identification or status as an indicator of likelihood of being sexually abusive. The facility indicates through interviews that they will consider on a case-by-case basis assignment to a living unit that will ensure the resident's health and safety, and whether the placement would present management or security problems.</p>

Staff accepts reports made verbally, in writing, anonymously, and from third parties and promptly document any verbal reports. Telephone calls are free and not recorded. Youth have regular contact with their families or guardians and their attorney. At the time of the onsite portion of the audit the facility had multiple external reporting options. Youth can call or write to either the Grand Forks County Sheriff's Department, or the North Dakota Department of Human Services. Mail to the Grand Forks County Sheriff's Department or Child Protection at the North Dakota Department of Human Services is treated as legal mail and not opened. However, the Community Violence Intervention Center (CVIC), which provides sexual violence victim support and advocacy, is also listed in some materials as a reporting entity. The Department of Justice put out an interpretation of standard 115.351 (b) on February 6, 2020, that states that rape crisis centers and other victim service providers should not be used as a reporting entity.</p> <p data-bbox="244 696 1474 851">CORRECTIVE ACTION: The auditor required that training materials, the posters, the handbook, the website, and any other material the facility may have, be updated to remove any reference to CVIC as a reporting entity. 115.362	Agency protection duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Through a review of policy, interviews with the Administrator and random staff, the facility requires all staff to take immediate action to protect the resident from imminent sexual abuse. There have been no instances that a resident was subject to risk of imminent sexual abuse.

115.363	Reporting to other confinement facilities
	Auditor Overall Determination: Meets Standard
	<p data-bbox="244 208 451 235">Auditor Discussion</p> <p data-bbox="244 271 1485 461">Through interviews with the administrator and the PREA Coordinator there are procedures in place to appropriately act upon receiving an allegation of sexual abuse of a resident while at another facility or reported by another facility to have occurred at this facility. Action is initiated no later than 72 hours and actions will be documented. They stated that this notification must be from Administrator to Administrator. There have been no instances of these allegations received from other facilities regarding abuse that occurred at Grand Forks County JDC or received at Grand Forks County JDC regarding youth who were previously placed at other facilities.</p>

115.364	Staff first responder duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Grand Forks County JDC staff have been trained in first responder duties and were aware of the elements of this standard (separate alleged victim/abuser, preservation, and protection of crime scene, to include collection of physical evidence as soon as possible by law enforcement or the SANE nurse, including the request of the victim not to take any actions which could destroy any physical evidence). A review of policy as well as interviews with random staff confirmed knowledge of these procedures.

115.365	Coordinated response
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The facilities coordinated response plan is outlined in policy. The Grand Forks County JDC policy outlines the steps to be taken at the onset by first responders and notification of the Grand Forks County Sheriff's Office. The youth would be transported to the Altru Hospital where SANE staff are available to conduct a forensic examination. They will notify the victim advocate at CVIC and request their presence at the emergency room. This team will address the medical, emotional, and legal needs of survivors who have been sexually assaulted.</p>

115.366	Preservation of ability to protect residents from contact with abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>There are no barriers preventing the administrator from removing alleged staff, volunteer, or contractor sexual abusers from contact with residents pending the outcome of the investigation and a determination of discipline. The facility staff are not represented by a union. There is no collective bargaining agreement that precludes the Grand Forks County JDC administration from removing an employee from contact with youth while an incident is under investigation or terminating employment after a substantiated allegation against the employee for sexual abuse.</p>

115.367	Agency protection against retaliation
	Auditor Overall Determination: Meets Standard
	<p data-bbox="229 192 1509 255">Auditor Discussion</p> <p data-bbox="229 255 1509 548">The facility PREA policy includes measures to protect against retaliation. The PREA Coordinator is assigned to monitor for retaliation against both youth and staff. Should any person who cooperates with a sexual misconduct investigation express fear of retaliation appropriate protective measures will be taken. Retaliation monitoring will be discontinued should the allegation be unfounded. Measures include monitoring their conduct and disciplinary reports, removing contact of alleged staff/resident abusers, emotional support services for those who fear retaliation, and consistently checking in with the individual who has reported retaliation. Typically, the population has been low, and youth are in individual rooms. If the population increases requiring two youth to a room, separation would be a measure that would be utilized if necessary. The monitoring is documented for up to 90-days or longer if needed.</p>

115.368	Post-allegation protective custody
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The facility does not use segregated housing of residents as a means to keep them safe from sexual misconduct. Interviews confirmed the prohibition of segregated housing for this purpose. Youth have individual sleeping rooms and when they are out of their room they are in the direct supervision of staff. Adequate precautions can be taken such as keeping the youth in more close proximity of staff to keep them safe.</p>

115.371	Criminal and administrative agency investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Determination of compliance was made by a review policy and procedure and through discussions with staff and youth. The investigators follow all standards during their investigation and have received specialized training. Administrative investigations include efforts to determine whether staff actions/failures contributed to the abuse documented through written reports, which will include physical/testimonial evidence, credibility reasoning assessments and investigative facts and findings. All allegations are investigated, including third party and anonymous reports. All written reports will be retained for as long as the alleged abuser is incarcerated or employed by the agency, plus five years.</p>

115.372	Evidentiary standard for administrative investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The Grand Forks County JDC administrative investigators use no standard higher than a preponderance of evidence in making a determination of alleged sexual abuse/harassment in an administrative investigation. The auditor determined this through a review of policy and interviews.

115.373	Reporting to residents
	Auditor Overall Determination: Meets Standard
	<p data-bbox="229 192 1509 255">Auditor Discussion</p> <p data-bbox="229 255 1509 512">The auditor's compliance determination was made through interviews, a review of policy and procedure and reviewing the one allegation that was investigated that included a notice to the resident as to the outcome. This document was signed by the resident. The facility notifies residents as to whether the allegation was substantiated, unsubstantiated or unfounded. For allegations of staff sexual abuse against a resident they will notify the resident when the staff member is no longer posted within the resident's unit, when the staff member is no longer employed at the facility, the alleged abuse has been indicted on a charge related to sexual abuse in the facility and if the alleged abuse has been convicted on a charge related to sexual abuse within the facility.</p>

115.376	Disciplinary sanctions for staff
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor reviewed policy and interviewed the administrator. All staff members who violate sexual abuse, sexual harassment and retaliation policies are subject to disciplinary sanctions. Termination is the presumptive disciplinary sanction for staff who have engaged in sexual abuse. Interviews and a review of policy confirmed that this standard will be followed. Investigations will be properly referred to investigators with the legal authority for criminal action.</p>

115.377	Corrective action for contractors and volunteers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor reviewed policy and interviewed the administrator. Any contractor or volunteer who violates sexual abuse, sexual harassment and retaliation policies are subject to disciplinary sanctions including termination of service. Contractors or volunteers who engage in sexual abuse will be reported to law enforcement (unless the activity was clearly not criminal) and relevant licensing bodies. There have been no contractors or volunteers who have been accused of sexual misconduct.</p>

115.378	Interventions and disciplinary sanctions for residents
	Auditor Overall Determination: Meets Standard
	<p data-bbox="244 208 453 235">Auditor Discussion</p> <p data-bbox="244 271 1493 432">For incidents of youth-on-youth sexual abuse, sexual harassment or retaliation, administrative sanctions will be handed out following the formal disciplinary processes and applied commensurate with the level of infraction. A youth's access to general programming or education is not conditional on receiving interventions designed to address/correct underlying reasons or motivations for abuse. The facility does not use isolation as a disciplinary sanction. These procedures were verified through a review of policy and through interviews.</p>

115.381	Medical and mental health screenings; history of sexual abuse
	Auditor Overall Determination: Meets Standard
	<p data-bbox="244 208 453 237">Auditor Discussion</p> <p data-bbox="244 271 1485 465">Grand Forks County JDC staff conduct a screening interview with youth immediately upon arrival. The facility will verbally obtain informed consent from residents before reporting information about prior sexual victimization that did not occur in an institutional setting for residents over 18 years of age. If sexual abuse or sexual perpetration is disclosed during the screening, they will offer a follow-up meeting with the nurse within 14 days of the intake screening and document the offer and whether the resident desires to have follow-up with a medical or mental health practitioner.</p>

115.382	Access to emergency medical and mental health services
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The facility provides access to emergency medical and mental health services. In the event services after hours are not available by the nurse at the facility, or they indicate in their professional judgment that outside services are needed, residents would be taken to the Altru Hospital. The nurse works in coordination with Altru Hospital to ensure that resident victims of sexual abuse are offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate. These services have not been used during the audit review period.</p>

115.383	Ongoing medical and mental health care for sexual abuse victims and abusers
	Auditor Overall Determination: Meets Standard
	<p data-bbox="229 197 1508 264">Auditor Discussion</p> <p data-bbox="229 264 1508 483">The facility requires that medical and mental health evaluations and treatment be offered at no cost to sexual abuse victims and abusers. If the youth is taken to the hospital, they would follow any recommendations made by hospital staff or provide any services needed that were not provided by the hospital. If a youth is taken to the hospital, tests for sexually transmitted infections and pregnancy tests will be offered there by the SANE, but they will follow-up if for some reason they were not done at the hospital. The medical staff will work together to develop an on-going treatment plan and refer to external support services as necessary.</p>

115.386	Sexual abuse incident reviews
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility will conduct incident reviews as outlined within their PREA policy. They will conduct formal sexual abuse incident reviews following each sexual abuse investigation specifically answering the questions posed within the standard. This review will include upper-level staff, supervisors, investigators, and medical staff. The auditor verified this through interviews and a review of policy. There have been no substantiated or unsubstantiated sexual abuse cases to review.

115.387	Data collection
